| Project Name  | Toy Craft Tales: Tableau's Vision into Toy Manufacturer Data |
| Maximum Marks | 2 Marks                                                      |
|               |                                                              |

### Proposed Solution Template

Project team shall fill the following information in the proposed solution template.

| S.No. | Parameter                                   | Description                                                                                                                                                                                 |
|-------|---------------------------------------------|---------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------|
| 1     | Problem Statement<br>(Problem to be solved) | Toy manufacturers often lack actionable insights from sales, inventory, and customer engagement data, leading to inefficiencies in production and design.                                   |
| 2     | Idea / Solution description                 | A Tableau-powered interactive dashboard system that visualizes key toy industry metrics – including demand trends, age group preferences, and stock levels – for real-time decision-making. |
| 3     | Novelty / Uniqueness                        | Combines storytelling with data through “Toy Craft Tales” – a narrative-based approach that helps non-technical users interpret complex datasets intuitively.                               |
| 4     | Social Impact / Customer Satisfaction       | Increases efficiency in toy production, reduces waste, and aligns products with children’s interests – ultimately leading to higher satisfaction for both customers and manufacturers.      |
| 5     | Business Model (Revenue Model)              | Subscription-based model for manufacturers and retailers; freemium version                                                                                                                  |

|   |                             |                                                                                                                                                                           |
|---|-----------------------------|---------------------------------------------------------------------------------------------------------------------------------------------------------------------------|
|   |                             | with limited dashboards, with additional premium analytics and customization for enterprise clients.                                                                      |
| 6 | Scalability of the Solution | The solution can scale across global markets and be adapted for various toy segments, from educational toys to collectibles, with multilingual and regional data support. |
